INTRODUCTION:

[www.definetraining.com](http://www.definetraining.com)

may seem simple enough in theory, but not all employees have the necessary skills and competencies to successfully apply it in practice. One of the key components in driving change is employee training and development. Provide additional risk management training to the in-house risk management team and business units. Risk managers may conduct it personally or outsource to third party providers. In-depth risk management training should include (this example is based on the actual risk management Training course is intended to introduce the fundamentals of Risk Management being a systematic core built-in function in all types of organizations. This training course provides you with a general overview of all main aspects of Risk Management starting from the

*DMCT/OL/9/18(Rev3Dt:23/9/18)*

definition of the term and going through the building blocks of the total integrated Enterprise Risk Management model (ERM) together with its related Risk Governance arrangements.

This training course will enable participants to appreciate the need and urgency to re-visit their existing Risk Management framework with an aim to improve and align with the overall organization strategic plan.
