COURSE DESCRIPTION:

This comprehensive 5-day training course equips participants with the knowledge and skills necessary to effectively prepare for and respond to emergencies at a shipping terminal handling fertilizers. The course covers various aspects of emergency preparedness, including risk assessment, incident management, and response procedures specific to the fertilizer industry.

COURSE OBJECTIVES:

Upon completion of this course, participants will be able to:

- Identify potential hazards and risks associated with fertilizer handling and storage at shipping terminals.
- Develop and implement an emergency response plan tailored to the specific needs of the fertilizer shipping terminal.
- Understand and comply with relevant regulations, standards, and best practices for emergency preparedness in the fertilizer industry.
- Recognize and respond appropriately to emergencies like fires, spills, and releases.
- Effectively coordinate with emergency response teams, regulatory authorities, and other stakeholders during an emergency.
- Conduct post-incident investigations and implement corrective actions to improve emergency preparedness.

DMCT/OL/9/18(Rev3Dt:23/9/18)

P.O BOX 45304 ABU DHABI, U.A.E T +971 2 6264455 F +971 2 6275344

WHO SHOULD ATTEND:

This course is designed for personnel involved in the operations, management, and emergency response at fertilizer shipping terminals, including:

- Terminal managers and supervisors
- · Health, safety, and environmental professionals
- Emergency response coordinators
- Logistics and transportation personnel
- Regulatory compliance officers
- Fertilizer handling and storage personnel

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions, and motivate everybody find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course. Very useful Course Materials will be given.

- 30% Lectures
- 30% Workshops and work presentation
- 20% Group Work& Practical Exercises
- 20% Videos& General Discussions
