TRAINING DESCRIPTION

There exists an inherent linkage between an organization's health and safety culture, its management's level of commitment to health and safety, and its overall health and safety performance. HSSE performance can significantly improve when the top Management make worker health and safety a priority and the entire workforce from the top to the bottom share a robust health and safety culture.

This Enhancing HSSE Environment Performance and Effectiveness training course aims at providing HSE managers and professionals with the best HSSE systems and practices which has proven effective in building a strong health and safety culture, thereby improving the health and safety performance of the organization and protecting the lives of the workers.

TRAINING OBJECTIVES

Upon the successful completion of this course, participants will be able to: -

- Review and analyze existing HSSE processes to identify areas for improvements.
- Design strategies that are key to driving health and safety performance of an organization.
- Deliver effective communication to engage the entire workforce in health and safety.
- Preventing injuries and minimizing HSSE risks.
- Adopt a mindset of leading and striving for continual improvement in HSSE performance.

WHO SHOULD ATTEND?

This course is suitable for:

- HSSE supervisors, executives, managers and advisors.
- Directors, department heads and other business leaders looking to enhance the HSSE performance of their organization by learning from best practices.

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivating everybody to find the right answers. You will also be encouraged to raise your questions and to share in the development of the right answers using your analysis and experiences. Tests of the multiple-choice type will be made available daily to examine the effectiveness of delivering the course.
