TRAINING OVERVIEW

TRAINING DESCRIPTION

High quality Contract and Tender Management are essential activities in achieving improved levels of performance for all organizations. Providing the high value-added activities available from contract and procurement operations requires the continuous involvement of knowledgeable professionals and management who understand and implement the best practices in Contract Management and Tendering for the acquisition of goods, equipment, and services.

The overall aim of this course is to provide participants with the knowledge and skills needed to successfully manage a project executed by contractors throughout its life cycle from initial concept to delivery.

Participants in this interactive course will learn all the critical tools required to perform project plans and develop project budgets as well as techniques needed to communicate and manage contractors during the implementation phase.

DMCT/OL/9/18(Rev3Dt:23/9/18)

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivating everybody find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of the multiple-choice type will be made available on a daily basis to examine the effectiveness of delivering the course.

Very useful Course Materials will be given.
