TRAINING OVERVIEW

TRAINING DESCRIPTION

Advanced Train the Trainer (TTT) program course presents skills, concepts, techniques, and skill approaches with the purpose of providing participants with a foundation of training skills, based on a sound understanding of learning, so that they can construct and deliver training sessions that hold attendees' interest and achieve desired outcomes.

The program has been designed to develop practical skills of the trainer. For these skills to be applied in a systematic and appropriate way, this program also establishes an understanding of the way in which people learn and the environment necessary for this to take place.

TRAINING OBJECTIVES

At this program's conclusion, participants should be able to:

- Explain learning styles and how to accommodate all four learning styles in the classroom.
- Describe the key principles of effective communication in a workshop setting.
- Use a variety of training techniques to stimulate participation.
- Develop a plan and prepare for an effective training session.
- Understand the different levels of evaluation and when to use each.
- Understand how and when to add fun and humor to a program.
- Explain interventions for difficult situations.

DMCT/OL/9/18(Rev3Dt:23/9/18)

- Practice the skills needed for a team presentation.

Upon completion of the program, the participants will be able to:

- Explain the learning process and identify how it should be used when constructing a training event.
- Prepare session plans to achieve agreed learning objectives.
- Design and use visual and audio aids that contribute to learning.
- Conduct interactive, face-to-face sessions that demonstrate achievement of the instructional learning objectives for each module.
- Give and receive properly structured, developmental feedback to improve people's skills as facilitators of face-to-face learning.

WHO SHOULD ATTEND

Train the Trainer program will be valuable and useful to those in training, managerial and/or HR positions whose responsibilities are to construct and deliver successful interactive, face-to-face training sessions, and need the knowledge, skills, and tools to lead a training session with absolute confidence.

TRAINING METHODOLOGY:

A highly interactive combination of lectures and discussion sessions will be managed to maximize the amount and quality of information and knowledge transfer. The sessions will start by raising the most relevant questions and motivate everybody to find the right answers. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on a daily basis to examine the effectiveness of delivering the course.

Very useful Course Materials will be given.

- 30% Lectures
